

High Volume Single Inlet Centrifugal Fans SMAV Series

- SIVAR quality stands for high durability.
- High quality, advanced technology.
- Air flow up to 58.000m³/h.
- Low, medium pressure.
- Optional fan mounting inside a Fan Section.

Suitable for industrial applications.

Housing made:

- Galvanized pressed steel.
- Stainless steel.
- Pressed steel sheet protected by electrostatic, epoxy paint.

Fans for specific applications and requirements

We have the knowledge to manufacture fans for specific applications and requirements. The design and construction of ventilators is depending on the circumstances and requirements of each installation.

SIVAR fans accomplishes the highest efficiency and contributes to a further reduction of energy costs per m³/h exhausted air.

Technical Characteristics SMAV 4T (1450RPM / 400V)				
Type	Power (kW)	Inlet Flange Ø (mm)	Air Flow (m ³ /h)	Price
SMAV 450 4T 10	7,5	450	19.500	¤
SMAV 500 4T 15	11	500	23.500	¤
SMAV 600 4T 20	15	600	25.500	¤
SMAV 600 4T 25	18,5	600	28.500	¤
SMAV 600 4T 30	22	600	35.000	¤
SMAV 700 4T 40	30	700	42.000	¤
SMAV 700 4T 50	40	700	58.000	¤

Caution: 400V (three phase) motors should be protected by thermal contacts.
