

Wall Mounted Fans BPP Series

- The unification of the grill and panel - both in a single composite structure, gives a slimmer body to the fan and a tight fit on installation.
- Airflow direction can be changed by switch cord.
- ABS plastic material.
- Impeller's design and dynamic balance provides a high air performance. Thanks to its special surface, never shine and change color.
- Class B.
- Directive EN 60335-1, EN 60335-2-80
- Speed can be adjusted using an optional controller

Application areas: Bathrooms, kitchens, meeting rooms, offices etc. Used in Areas, where silence desired or strength needed against corrosion.

Technical Characteristics BPP Series
