

Roof Slot Vents

Type SLOTT

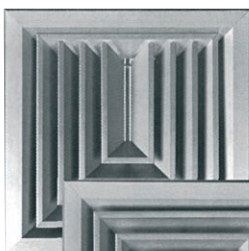

- Made of heavy-duty aluminum for longitudinal installation in false ceilings.
- Adjustable air outlet in all directions and internal damper for air flow regulation.

Access Vents With Filter

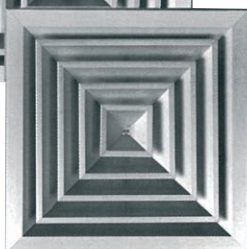

- **Available in two types:**
 - Linear (Type B-13)
 - For fresh air (Type BN)
- The filter can be extracted and installed again, without removing the vent.

Fix Roof Vents

Type П03

Type П04

- Square or rectangular roof vents with fixed airoutlet louvers and fixed air jet, choice of any of four air flow directions.
- Available with **DAMPER** and even distribution grid.

- Vents manufactured in all desired dimensions.
- Vents are painted in any selected color with electrostatic paint.
